Jackie Augustine

The Ohio State University at Lima

Robots and Drones for science: Not just science fiction *

Dr. Jackie Augustine, Associate Professor at The Ohio State University at Lima, studies Greater and Lesser Prairie-Chickens in western Kansas. She utilizes robots to investigate how males attract mates. Another project is determining whether drones could be used to survey for prairie-chickens in the future. The presentation will include videos of robots and drones in action. **This program is free and open to the public.**

*Co-sponsored with Johnny Appleseed Metropolitan Park District

Tuesday, October 1, 2019, 7:30 pm
